Please read all Information below before Installation

Warning: Disconnect negative battery cable from battery; refer to owner's manual. Failure to do so may result in electrical shock, injury, or fire. Secure negative battery cable away from positive side of battery and all other positive voltage sources on vehicle.

Safety First: Always wear appropriate safety gear including safety glasses when performing any electrical work. It is highly recommended that safety glasses be worn throughout this installation process. Be sure vehicle is on level surface, secure and cool.

Installation:

1. Refer to the factory service manual and remove the OEM headlight assembly and headlight mount from the lower triple tree.
2. Using the existing 5/16"-18 X 1-3/4" UNC Hex Socket Head OEM mounting bolt, mount the new 18ST-HL-MOUNT to the lower triple tree. The 18ST-HL-MOUNT should be installed with the flat side facing the front of the motorcycle to maintain the OEM headlight position. See Photo 1.

Note: The 18ST-HL-MOUNT can be mounted in the opposite direction to extend the headlight forward 1-3/8" if needed for your application.

3. Install the new headlight bucket to the mount. Refer to the instructions with the headlight bucket.
