11. Reinstall the License Plate frame.
12. NOTE: USE ALLEN WRENCH TO HOLD SETSCREW WHILE TIGHTENING LOCK NUT
13. Do not over tighten setscrews.
14. Use locktite when installing screws.
15. We will not warranty the license plate frame if the setscrew goes through face of the frame.
16. Route the wire harness thru the wire loom along the right side of the fender and thru the hole in the fender.
17. Install the plug into the 8 pin stock connector.
18. Check for proper operation.
19. Re-install seat.

#### Our Warranty Policy

Cycle Visions' obligation under "Our Warranty Policy" is limited to one (1) year from date of purchase to repair or replacement of the defective item (s). Chrome, polished, powder-coated, anodized finishes, or electrical parts are limited to thirty (30) day from date of purchase.

This warranty will be void on all products that show evidence of misapplication, improper installation, abuse, lack of proper maintenance, negligence, or alteration from their original design.

The consumer will be responsible for removing from the vehicle any defective item (s), transportation costs prepaid and for reinstallation upon return by Cycle Visions. The loss of use of the product, loss of time, inconvenience, commercial loss or consequential damages is not covered. Cycle Visions reserves the right to change the design of any product without assuming any obligation to modify any product previously manufactured. Warranty returns of Cycle Visions products are few because of our high quality products.

Carefully inspect all parts.... If you find that your parts arrived in damaged conditional all original packaging material (box and other materials) must be saved to make a proper damage claim within seven (7) days. You must be able to present the damaged boxes and materials to the freight carrier to verify your claim. The user shall assume all legal, personal, injury risk and liability and all other obligations, duties and risks associated therewith.
