NOTICE

It is the end user’s responsibility to ensure that all of the fasteners (including pre-assembled) are tightened before operation of the motorcycle. Kuryakyn will not provide warranty coverage on products or components lost due to improper installation or lack of maintenance. Periodic inspection and maintenance are required on all fasteners.

TIPS FOR PROPER CARE:

Your new BAHN product is made out of anodized aluminum. Anodized aluminum requires special attention when cleaning. Some cleaning products or procedures can actually remove the anodized treatment which will lead to pitting in the aluminum.

Thoroughly clean the BAHN product often with a soft cloth, mild soap and water. Regular cleaning keeps contaminants from building up.

Rinse thoroughly with FRESH water.

Use only metal protection products that are formulated for anodized aluminum.

DO NOT USE bleach or chlorides to clean the BAHN product.

DO NOT USE products containing abrasives to clean the BAHN product. **Never** use steel or brass wool, wire brushes, polishing wheels, rubbing or polishing compounds on the Bahn product.

DO NOT USE concentrated alkaline based solutions to clean the BAHN product. Many detergents are alkaline based.
