

## LOW RIDER-S INNER FAIRING FOR DIGITAL GAUGE

### 2018 - PRESENT MODELS

Love your new Low Rider-S but not the tank console? Want to add some T-Bars or Taller billet risers? Our new Paul Yaffe Originals Low Rider-S Inner fairing for M8 Softails allows easy installation of H-D's super small & trick \*Digital Instrument Module right inside of your fairing! This allows complete removal / replacement of your tank console and gives you the freedom to use any height T-bars or aftermarket risers on 2022 models.

If you're looking to shave your tank and install one of our killer Dimple Die or Scallop Dash kits or add T-bars or tall billet risers our Custom Fairing Inner answers the gauge relocation question! Available in a primer finish ready for custom paint match for an awesome custom touch OR you can just wrinkle coat it like stock! Handmade right here in our Phoenix factory by Arizona craftsmen.

NOTE: Requires Bagger Nation M8 Softail Digital Instrument Module Harness part #PYO:M8ST-IMH-S  
\*May require the purchase of Digital Gauge from H-D depending on year /model.

Part # 70900655 (International, Canada)

New Gauges will require 4 screws Part # 8679 (4) (Not required on 2022 models)
