READ THESE INSTRUCTIONS THOROUGHLY BEFORE INSTALLATION!

This is a specific fit accessory and is only meant to fit certain motorcycle models. You are responsible for the proper installation of this accessory on your motorcycle. Your attention to these installation instructions, any additional specific instructions and recommendations will permit the safe and proper use of this accessory. You must mount this accessory properly and securely before riding your motorcycle. If you lack the ability to safely and properly install this accessory, seek out a qualified motorcycle technician for assistance. During installation, you may need to support the motorcycle with a suitable stand or lift so it will not tip over and injure you, or damage the vehicle. Using or mounting this accessory improperly could result in a loss of control of the motorcycle which could result in damage to your motorcycle or other personal property, the property of third parties, and/or personal injury to yourself or others, up to and including death.

BE SURE TO THOROUGHLY READ AND CLOSELY FOLLOW THE MOUNTING INSTRUCTIONS THAT ARE INCLUDED WITH THIS FENDER.

- If you do not understand these instructions **DO NOT** mount this accessory, and remove any related components you may have already installed on your motorcycle.
- Thoroughly inspect your motorcycle and all accessories before every ride. Do not use this fender if its mounting system has been modified, has deteriorated, loosened or is beginning to fail.
- Continually check the security of this and all other accessories at each stop as you ride. Items attached to your motorcycle can loosen during operation, so be sure to check them frequently.
- Do not use this fender if you have any doubts as to whether it is properly mounted to your motorcycle. You must be sure that the installation of the fender accessory will not damage your motorcycle's painted or plated parts. Saddlemen is not responsible if you or your technician mount this accessory and it damages your motorcycle for any reason.
- When using any accessory, do not exceed your vehicle's Maximum Gross Vehicle Weight as listed on your motorcycle or in the manufacturer's owner's manual.
- If this accessory is ever damaged, remove it and do not use it until it has been inspected by your local professional motorcycle dealer. Replace any mounting part immediately if it has sustained damage that will prevent it from being properly secured to your motorcycle.

DO NOT ATTEMPT TO USE THIS ACCESSORY FENDER IF:

- You do not understand these installation and use instructions;
- You do not understand any part of this accessory's mounting system;
- You have any doubts as to the security of the mounting system.
- If you have any concerns or questions, seek help at your qualified motorcycle dealer or call the Saddlemen support line at (310) 638-1222.

11-400486 Carbon Fiber Front Fender (09-2025)

PH: 310.638.1222

⚠ WARNING:

Remember: Motorcycling can be a dangerous activity. Installation of any accessory can increase your risk if it is not installed properly. You are responsible to install this accessory so it will not contact any portion of the drive train, suspension or steering, or if it will in any way interfere with the operation of your motorcycle.

To avoid injury, install while engine is cold.

INSTALLATION:

1. See Fig. A. Using the photo as your guide, locate the four bolts that hold your stock fender onto your forks. There will be two bolts on the left side, and two bolts on the right side. Depending on the model of motorcycle, these could be arranged vertically or horizontally.

2. Remove these bolts from the stock fender. Using caution to not scratch anything, you should be able to slide the fender out either the front or the back of the wheel.

3. See Fig. B. Carefully slide the new fender into place, using care to make sure nothing gets scratched. Install the nuts, bolts and washers provided with this kit, and mount the new fender onto your forks. The washers, then the locknuts, go on the inside of the fender.

4. Repeat this procedure on both sides.

FINAL CHECKLIST

Check all clearances, making sure that the mounting hardware does not contact the front wheel, tire, brakes, etc. Check also the clearance between the tire and the new fender. There must be at least 1/2" of clearance between the tire and the fender.

⚠ WARNING:

- It is vital that you verify that this accessory and/or any of its parts will not touch, or interfere with other components while the suspension and steering move through their entire range of motion. Make sure that no part of this fender can interfere with any other parts of the motorcycle in the course of operation, as damage could occur.
- Check to be sure that all lights, turn signals, mirrors and safety reflectors are in place once the fender is installed. If the fender or mounting hardware blocks or removes any side reflectors, place new reflectors on the exterior sides of the fender to comply with your local laws. Reflectors with self-adhesive backing are available from motorcycle or automobile supply stores. It is your responsibility to make sure that the installation of this accessory does not create an unsafe or illegal condition.
- Improperly installed or loose hardware can allow the fender to move. Before riding, visually check the clearance between the fender and any moving parts (wheel, tire, brake) that could impair normal operation of the motorcycle.

CAUTION:

It is your responsibility to make sure this accessory installation does not create an unsafe or illegal situation. Remember that this is a custom accessory. You must check the installation to determine if it will be safe for you to operate the motorcycle safely and legally. You must also ensure that the installation does not damage your vehicle in any way.

After 50 miles (80 kilometers), recheck all of the fender mounting hardware and the fender to make sure they are still tight and secure. Loose hardware can cause the fairing to interfere with the vehicle's operation and can cause an unsafe riding condition. After that, check fastener tightness during each regular maintenance check.

LIMITED WARRANTY POLICY

SADDLEMEN LIMITED ONE-YEAR WARRANTY Saddlemen warrants its products for defects in materials, design or workmanship for a period of one year after retail purchase. Items that are defective will be repaired or replaced by Saddlemen at its sole discretion. Damage caused by improper use or improper installation is not a defect; therefore repair, replacement or shipping of a damaged accessory will not be covered under this warranty. This limited warranty contains other provisions and conditions, so please refer to the Warranty Policy that was provided with your Saddlemen product or visit www.saddlemen.com for additional information. You can count on Saddlemen's quality, innovation, service and style. If for any reason you are not satisfied with the performance of your Saddlemen accessory, please contact the Saddlemen support line at (310) 638-1222.
