The S&S Air Cleaner Kit for Indian® Thunder Stroke™ 111 engines provides more air flow, which translates to 5 additional horsepower. Note the wide smooth torque curve that puts the power right where you need it. This engine was tuned with a Dynojet® Power Commander® V .

The S&S Air Cleaner Kit provides 104 cfm* (37.7%) more air than the stock air cleaner.

*Tests conducted on a Super Flow 1020 flow bench at 28 inches of water test pressure.

S&S High flow air filter provides 2x increase in surface area for a 37% increase in airflow.
