Chart is in inches unless otherwise noted. If you do not have a cloth tape, use string and measure flat.

### A. Neck

Measure around the base of your own neck, keeping two fingers between your neck and the tape measurer.

### B. Chest

Measure around your chest just under armpits.

### C. Waist

Reference pant size or measure around fullest part of your waist.

### D. Sleeve

While standing with your arms relaxed at your side, place one end of flexible tape measure on your spine at the base of your neck. Measure over the top of your shoulder down over the point of your elbow, and finish at the wrist bone.

### SIZING NOTES:

Jackets are neither slim nor oversized. Regular-fitting technical garments may be worn over heavier midlayers. If you are on the high end of the chart in any category consider sizing up.

### WASH & CARE:

Do not machine wash or dry. Do a basic cleaning. Use a non-abrasive sponge, cold water, and a non-detergent soap. Gently scrub soiled areas by hand.
